## **Wi-Fi Now Available in Montco Buildings**

**Norristown, PA (August 6, 2014)** – The Montgomery County Commissioners and the county’s Information & Technology Solutions (ITS) department announced today that Wi-Fi is now available in four Montgomery County facilities.

The service is now available in the Montgomery County Courthouse, One Montgomery Plaza, Adult Probation offices on Ross Road in Bridgeport, and Juvenile Probation offices in Jeffersonville. All other county buildings will have Wi-Fi in the next few months.

“This is yet another step in this administration’s efforts to make county government as responsive to our constituents’ needs as possible by making their visits to our county facilities as productive as possible, and to continue to improve our technology,” said Josh Shapiro, chair of the Montgomery County Commissioners.

ITS has deployed two Wi-Fi networks in each building for security purposes. The MC Guest network will allow visitors with iPads and other personal devices to have access to the internet with a few restrictions. The MC Secure network is for county-issued laptops and mobile devices.
