Public Invited to Meeting on Cross County Trail Feasibility Study

Norristown, PA (September 30, 2014) – Residents from Plymouth Township, Whitemarsh Township, and surrounding communities are invited to a public meeting on October 7, 2014 to learn more about the Cross County Trail Feasibility Study—a trail project to identify a multi-use pathway to fill a gap on the Cross County Trail between Germantown Pike and Joshua Road. The meeting will take place from 7:00 p.m. to 9:00 p.m. in Meeting Room A at the Greater Plymouth Community Center, 2910 Jolly Road, Plymouth Meeting.

Plymouth Township and Whitemarsh Township joined with Montgomery County to conduct the study, which will determine the feasibility of continuing the Cross County Trail from its current end point at Germantown and Chemical Roads in Plymouth Township into Whitemarsh Township. Area residents, bicyclists, walkers, nature lovers, and outdoor enthusiasts will have an opportunity to participate in the meeting and comment on the project.

Participants can stop in at any time during the workshop to share their ideas. Maps and a questionnaire will be provided to facilitate input from participants. Representatives from Montgomery County, Plymouth and Whitemarsh Townships, the study committee, and the consulting team will be available to receive comments and questions.

With funding provided by a PECO Green Region grant and township funds, Plymouth Township has contracted with Campbell Thomas & Company of Philadelphia to conduct the study. Traffic Planning Design is serving as part of the Campbell Thomas team. For further information, contact David Clifford at dcliffor@montcopa.org or 610-278-3887.
