Montgomery County Offers Public Workshops on Bike Montco

Norristown, PA (October 15, 2018) – The Montgomery County Planning Commission (MCPC) is offering a free public workshop on *Bike Montco: The Bicycle Plan for Montgomery County*. The workshop will take place on three dates at various locations throughout the county.

“We are looking forward to partnering with our municipalities and residents to expand the bicycle network in Montgomery County. *Bike Montco* gives county government, townships, boroughs, and PennDOT a framework for focusing on achievable improvements that connect the most people to bikeable places while increasing bicycle safety and benefiting all cyclists,” said Jody L. Holton, AICP, MCPC Executive Director.

Bike Montco was adopted by the Montgomery County Commissioners in August and envisions the creation of a future on-road bicycle transportation network throughout Montgomery County. This planned future network and new policies in *Bike Montco* will work toward achieving improved bicycle access and mobility all across the county—a major goal of the county’s comprehensive plan, *Montco 2040: A Shared Vision*.

The workshop will focus on how municipalities can embark on practical and strategic projects to improve bicycle mobility and safety in their own communities. Participants will have an opportunity to ask questions and discuss how to make bicycling more appealing in their town.
