

The Prothonotary is pleased to inform you that our first original records were forwarded to Superior Court electronically on March 16, 2016. As of that date, the records of all cases appealed to Superior Court will be forwarded electronically.

The Prothonotary Office is delighted to bring this advancement to the Judiciary and citizens of our county. It means that upon receipt of an opinion, the record can be transmitted to Superior Court within minutes. Now that the record no longer needs to be printed out, bound, and mailed, the time saving element is immeasurable. Furthermore, the cost savings to the citizens of Montgomery County associated with printing and mailing are substantial. The Prothonotary Office strives to be efficient while maintaining the integrity and accuracy of the office.
