Build Your Own Birdhouse

Saturday, February 29th, at 1:00 pm

With spring just around the corner, now is a perfect time to build a birdhouse for your home!

Participants will learn about what makes a good birdhouse and which houses attract which kinds of birds. The program will end with participants building a basic birdhouse suitable for small birds like chickadees. Adapting the box for other birds will also be an option.

Pre-registration is required by February 19th. Call **610-666-5371** to register. There are a limited number of kits, so pre-registration is a must.

Participants should meet in the main pavilion.
This event will be held rain or shine.

This is a hands on workshop, so be ready to build. Kits will be provided as well as tools. Participants are welcome to bring their own tools, like cordless drills or hammers, if they wish.

The event is appropriate for ages 6 and up.
Children must be accompanied by an adult who can assist them.

A fee of \$5.00 per birdhouse kit is payable at the event.

Please feel free to call with any questions!

Lower Perkiomen Valley Park is located at 101 New Mill Road in Oaks, PA,
easily accessible from Egypt Road off Rt. 422.
